

# 5000 Series Bottled Water System

FOR HOME AND COMMERCIAL APPLIANCES

## Genuine Flojet bottled water system is ideal where portability is key

Pump recipe-quality water from commercial bottles to ensure better-tasting hot and cold beverages. The new 5000 Series Bottled Water System is designed to work with coffee/tea makers, refrigerator ice and water dispensers, espresso carts and portable sinks or any use requiring portable potable water.

The 5000 Series Bottled Water System is also designed for convenience. The pump automatically shuts off when the water source is depleted and restarts when water is restored. Its compact size supports easy mounting.

## Features and Benefits

- **Illuminated On/Off Switch:** Provides clear visibility in dark or hard-to-reach places
- **Long-Life Motor:** Ensures years of reliable operation
- **Flojet Diaphragm Pump:** Runs dry without damage, extending pump life
- **Quick Connect Port:** Speeds installation and replacement of suction and discharge tubing
- **Quiet Operation:** Minimizes noise pollution with noise-dampening rubber feet
- **Thermal Overload Protection:** Prevents overheating, protecting the pump and control box from damage

# 5000 Series Bottled Water System

FOR HOME AND COMMERCIAL APPLIANCES

- In coffee shops around the world, genuine Flojet Bottled Water Systems deliver recipe-quality water for more than two million cups of coffee a day
- Proven electric diaphragm pump technology ensures operational excellence, with more than seven million units in service
- Flojet Bottled Water Systems protect the environment by eliminating water filters from refrigerator dispensing systems, keeping more than 300,000 filters a year out of landfills
- Flojet brands build on 40 years of operational excellence and applications expertise, with a broad range of solutions for the food and beverage industry

## Applications

Refrigerator Dispense

Coffee Maker Dispense

## Dimensional Drawing

## Specifications
